

FALLS CREEK HIGH COUNTRY LOOP 301 Km

Mitta Mitta, Falls Creek, Mount beauty, Wodonga

Did you enjoy the ride up the Freeway to get to Wodonga? Like something just a bit different? OK Try this one. You're in luck because the Omeo Highway and the road up to Falls Creek have recently both been sealed, so here goes.

First along the shore of Lake Hume, then over Lockhart's Gap and in to Mitta (past the Dartmouth Dam turnoff) Now the fun starts, plenty of twisties along towards Omeo, then turn up towards Falls Creek, this is the Bogong High Plains Road and is 47Km of new blacktop (grey, actually, it's the tailings from the Bogong Power station) and it will take you past Rocky Valley Dam into Falls Creek.

Then down to Mount Beauty. Coffee, fuel, toilets available here. An easy run of 84Km will get you back to Wodonga down the Kiewa Valley Highway, but if you speak nicely to your ride leader he might take you down the Gundowring road for a much more interesting ride.

Total distance just in excess of 300Km, worth every one!

Good surface, may be loose gravel on Bogong High Plains Rd total distance

Just over 300Km generally winding roads to be treated with respect.
